¹ On December 19, 2011, the State Board of Education established new Achievement Level standards for the Algebra 1 End-of-Course (EOC) Assessment. Spring 2012 is the first time results are being reported according to these new standards. Spring 2011 Algebra 1 EOC Assessment scores were reported as T scores. The Spring 2011 results have been converted to the new scale and are being provided according to the new standards so that stakeholders and the general public are able to see what they would have been if the new score scale and Achievement Levels had been approved and implemented at that time.

² Percentages may not add to 100 due to rounding.

*No data are reported when fewer than ten students tested or if any Achievement Level percentage equals 100.
